Your Trusted Partner for Smart Logistics Solutions.

ABOUT US

Founded in 2019 in Johannesburg, SMA Logistics Services was established with a clear vision: to deliver a more personalised logistics service that combines urgency, convenience, and cost effectiveness. Our business has been built around a hands-on approach that gives clients direct access, faster response times, and solutions tailored to their needs.

At SMA Logistics Services, we believe logistics should be efficient, dependable, and stress free. We support businesses who understand the importance of time sensitive deliveries, transparent communication, and flexible service. Our goal is to provide a logistics experience that feels personal, professional, and consistently reliable.

OUR VALUES

Our values shape the way we work and the way we serve our clients.

Trust - built through accessibility and honest feedback

Respect - maintained through professional, mutual relationships

Innovation - using smarter ways to solve logistics challenges

Collaboration - working closely with clients to meet urgent requirements

Proactive service - staying engaged and responsive at all times

OUR PURPOSE

OUR VISION

Our vision is to become a trusted, technology driven logistics partner that delivers speed, reliability, and transparency to every client, every time. We aim to grow into a stronger African and international presence while continuing to improve service quality, efficiency, and digital capability.

Our future focus includes:

- Expanding into new African regions
- Strengthening links with global trade markets
- Introducing digital platforms to simplify ordering and tracking
- Reducing delivery times through smart logistics technology
- Advancing environmentally responsible service practices

OUR MISSION

Our mission is to empower businesses and individuals across South Africa by providing fast, affordable, and seamlessly connected logistics solutions that support growth and client satisfaction.

We do this by focusing on:

- People first service
- On time delivery
- Planet friendly operations
- Clear, real time communication
- Practical solutions that solve real business problems
